JUNIOR FULLSTACK/BACKEND DEVELOPER

Driven and ambitious Junior Full-Stack/Backend Developer with a proven track record of building high-performance web applications using React.js and modern backend technologies Like Laravel. I thrive on solving complex challenges and delivering top-tier solutions, always pushing for excellence in both frontend and backend development. My focus is on writing clean, scalable, and efficient code that stands the test of time. I'm relentless in staying ahead of industry trends, constantly honing my skills, and committed to making a significant impact in every project I undertake.

KEY COMPETENCIES

Html, CSS, Javascript

React Js

Tailwind CSS

Redux Toolkit

PHP, Laravel

OOP

MySQL, MsSQL

Unit , Feature Testing

Github

Linux

PROFESSIONAL EXPERIENCE

Gorgia

Jun 2024 - Present

Full-stack developer

Junior Full-Stack Developer at Gorgia, one of the largest hypermarkets in the Caucasus. Involved in a project managing employee access to buildings, tracking working hours, generating reports, and automating SMS notifications. Also responsible for implementing roles and permissions, allowing admins to handle exceptions and forgive honorable reasons. Experienced with Biostar biometric systems and integrating the Biostar2 API for secure access control. Additionally, I am working on a CRM project, where I have developed a real-time notification system, managed roles, and tackled various complex backend tasks.

Startup Project Spacefy

Mar 2023 - Aug 2023

Freelance Full-Stack Developer

Freelance Full-Stack Developer at a startup project with a small team of five members. Worked on building a forum-type portal where users could create spaces, post content, and discuss various topics. Contributed to both frontend and backend development, focusing on creating scalable architecture and ensuring a seamless user experience. Although the project was not launched, the experience helped refine collaborative development and problem-solving skills in a startup environment

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Computer Science and Technologies

Georgian American University (2021-2025)
